

Rosemary Potatoes

From Tom and Mary Kay

This recipe was sort of copied onto another sheet of typewritten recipes. It was hand written by Mom, and the very first part is missing. This is what I have...

...ovenproof fry pan heat olive oil add 1 T Rosemary. If potatoes have tough skins peel them. If they are really new don't peel them. Add to fry pan in single layer, turn to coat all sides - transfer to 350 degree oven and bake for 40 to 60 min. ten min before they are done with 1 T Rosemary and salt & pepper to taste.
